

SHAKESPEARE IN ACTION

WEEK FOUR

Targets met:

- ✓ Introduction to dance drama
- ✓ Developing mime skills
- ✓ Development of improvisation skills

Today, we performed with lights, costume and props today, and it is slowly coming together! We are now working towards a performance in July 😊

Romeo and Juliet.

• Dance Drama

Today we had fun devising some dance drama to show the difference between the Montagues and Capulets – using movement, facial expressions tableaux.

• Transitions:

We moved from this scene to the Prologue. We are modernising the prologue and creating a 'Breaking News' News report.

Pupils worked very hard today and this was highlighted with the use of lighting and using the drama space.

We were very excited to be working in the drama space today – with lights, costume and props. Rehearsals are going well, with lots of progress being made. Now we need to focus on learning lines 😊 so we can put all our focus into our acting 😊

They may be
'little'
but they are
'fierce'
